

Project Design Phase-I Solution Architecture

Date	13 November 2022
Team ID	PNT2022TMID34634
Project Name	Classification of Arrhythmia by Using Deep Learning with 2-D ECG Spectral Image Representation
Maximum Marks	4 Marks

Solution Architecture:

Technologies Required for the development and deployment of the project:

- HTML/CSS/JS-Front End
- Flask-Backend
- Python
- TensorFlow
- Image Processing
- Git & GitHub
- IBM Cloud
- IBM Watson
